

I do not agree with deregulating Canada Post. CP is a public service and not another avenue for the government to grab for more cash. Postal deregulation in other countries has led to fewer jobs ,poor service,and higher postage rates, hardly what the general public or small buisnesses need in these times of inflation and economic hardships that we're all dealing with. there is no good reason to change the mechanism that funds our postal service,there could be many improvements to be made but deregulation shouldn't be one of them.

I think that the profits that CP generates should be put back into the service that it provides for its customers! The government needs to stop taking millions in dividends From CP and start investing this money in the public post services like post offices,rural routes and door to door delivery!!!

ANY REVEIW OF OUR PUBLIC POST OFFICE SHOULD INCLUDE PUBLIC HEARINGS.THE GOVERNMENT SHOULD NOT MAKE ANY DECISIONS ABOUT OUR PUBLIC POST OFFICE UNTIL IT HAS PROPERLY CONSULTEDWITH THE PUBLIC AND THE DEADLINE SHOULD BE EXTENDED!!!!!!

I think that government is making a huge mistake by going down this road and the public should be made aware of the problems they re be faced with!
