RE: Submission for saving universal public postal service
FAX: 1-613-990-9033

COMMENTS:

On behalf of the Town of Cupar, SK. and Community I would like to express our opinion:

PLEASE do not change something that is not broken. Having the post office taken out of our town would take our town away. The community relies on the services and the low rates that we currently have. The community would be heartbroken if they were expected to drive their letter, parcel or card to the nearest town to have it mailed not to mention the increase in rates. Jobs would be lost and that we sadly result in residents moving away. The community is working hard to construct their town with the services to build and keep it going. Our community is rising. How would it be beneficial to CRASH it down? Eliminating one service would only cause a down spiral of loosing our community!

Thanks,

Linda Nameth
