

To protect our current low postage rates in the industrial world which is universal and affordable, which is something to celebrate, not deregulate and dismantle. I demand that our public post office not be deregulated. Deregulation elsewhere has proven to be bad for the public. I want to see Canada Post maintain its exclusive privilege to handle addressed letters.

It is concerning to me that the review of our public post office does not include public hearings. I believe that the government should not make any decisions about our public post office until it has properly consulted with the public. The government should also extend the deadline for the submissions.

Looking forward your reply.

Sincerely,  
Christian Engelstoft
