

Canada Post helps make Canada what it is. It provides a valuable service, a reliable and secure one, to every person in Canada ! No matter where one lives in Canada, we all get mail.

Change Canada Post, and you risk changing Canada, and in ways that can be very detrimental. This will make prices go way up, and the services offered diminish, and rural mail delivery may become a thing of the past, that only the rich can afford. Security and safety of our letter mail will be jeopardized as well. Just look at what happened to all the other countries who decided to follow this path.... not one good thing came of it.

Leave Canada Post alone, and dont risk changing the face of Canada.
