

I have always been a supporter of Canada Post - I avoid whenever possible using the contractor postal outlets. In Yellowknife, NT, our downtown postoffice is closing down. That means I would be forced to use Shopper's Drug Mart - a company I have been trying to boycott for the last 10 years. Please do not deny us the choice of service here in the North. The quality of service I have received from Canada Post workers contrasts greatly to the inferior service provided by contracted businesses like Shopper's Drug Mart. I have had no complaints with the service of our Yellowknife post office. The building has charm and is a historical building. The location is perfect. Honestly, if it isn't broken, don't fix it.
