Dear Mr. Menzies:

RE: Canada Post Strategic Review Committee

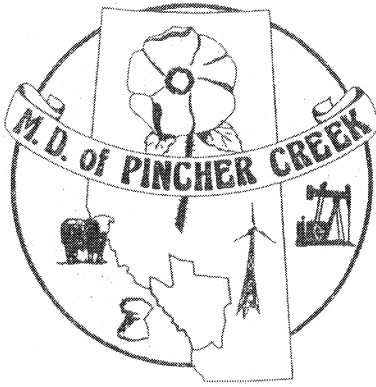

Council for the Municipal District of Pincher Creek No. 9 understands that the Government of Canada has instituted a strategic review of Canada Post. This strategic review will, Council understands, determine the future of universal public postal service in Canada which could include closing rural post offices or privatizing part of the public postal service.

Post Offices are the central focus point of every rural community. This is where networking takes place – conversations with friends and neighbours, information about the community activities/events and world events are discussed. Because of the interaction that takes place when people go to the post office and the importance of this interaction to the community, Council supports maintaining and possibility expanding rural post offices as a public postal service within our municipality and in rural areas, in general, as part of the communications network of our country.

Sincerely,

Rodney Cyr
