Dear Sir/Madam:

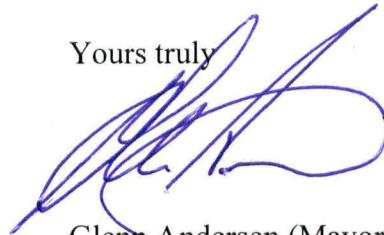

RE: Universal Public Postal Service – Deregulation

On August 11th, 2008 at our Town Council meeting, representatives of the Canadian Union of Postal Workers made a presentation to our Council regarding possible closure of our mail service or deregulation.

Town Council does not support closure of our facility due to loss of service, employment and inconvenience. We also don't support deregulation of Canada Post, once again. The Rural areas would be hit the hardest with service issues, employment and inconvenience.

We trust your Strategic Review Committee will take our views into consideration when they are discussing these areas of concern.

Yours truly

Glenn Andersen (Mayor)
Town of St. Paul
