

What is this crap I'm reading that you people want to privatize Canada Post. We are sick and tired of "our" governments giving tax payers services away to their friends in the corporate world. I'm still very angry with Ralph Kline giving our utilities away to his buddies. Hope they still invite him to parties! So smarten up, give everything away, and we won't need government, will we? We can be run by some of these wonderful companies, maybe "the bay", oops, maybe "gm", oh darn, or if this was the states, we could give everything to "enron" to run....oh dear!

Get my drift?

Remember there are always elections.....marj vetter
