To the CPC Strategic Review Board,

I would like to express my opposition to deregulating Canada Post. I believe removing Canada Post's monopoly on the delivery of lettermail will reduce the security and privacy of the mail, destroy good jobs and create poor ones & harm the environment by creating more pollution. It would most likely result in higher prices and reduced service, and be detrimental to small towns and northern communities.

Canada Post currently creates a profit without government assistance, let's keep it that way
